

STUDIES ON SPANISH TRANSLATIONS

While Latinos Slept... By Dr. Gary E. La More. Finally a detailed book showing the influence of the Westcott and Hort critical Greek text on the Spanish New Testament, RV 1960. Part I deals with the exposure of omissions, additions, transpositions and substitutions. Examples are given of proposed changes in marginal omissions, additions, trans-positions and substitutions as well. In Part II the author has shown where a word or words have been added to the Spanish N.T. He also indicates how Reina (1569) and (Valera (1602) handle the verse in question. - Pb - ISBN: 0-97438-170-5 - C\$15.00
